

NATIONAL GRID CORPORATION  
OF THE PHILIPPINES

ACTOSO 2010 07-091 -  
July 16, 2010

**HON. JOSE RENE D. ALMENDRAS**  
Secretary, Department of Energy  
Energy Center, Merritt Road  
Fort Bonifacio, Taguig City

**SUBJECT : NORMALIZATION OF LUZON TRANSMISSION SYSTEM**

**Dear Sec. ALMENDRAS:**

We are happy to inform the Honorable Secretary that after the onslaught of Tropical Storm "Basyang" in Metro Manila and nearby provinces last July 13, 14 and 15, 2010, the Luzon Regional Control Center has announced the lifting of the Red Alert System Condition at 2:30H of 15 July 2010 signaling the normalization of operation of the Luzon Grid. The generation capacity today, July 16, 2010 is around 7,466MW which is more than enough to meet today's forecasted system peak at 6,396MW.

Rest assured that NGCP is now assessing its experience from the incident and would do everything to improve its service to the general public.

Thank you very much and best regards.

Very truly yours,

**HENRY T. SY JR.**  
President and CEO
